CATALOG 2018-2019

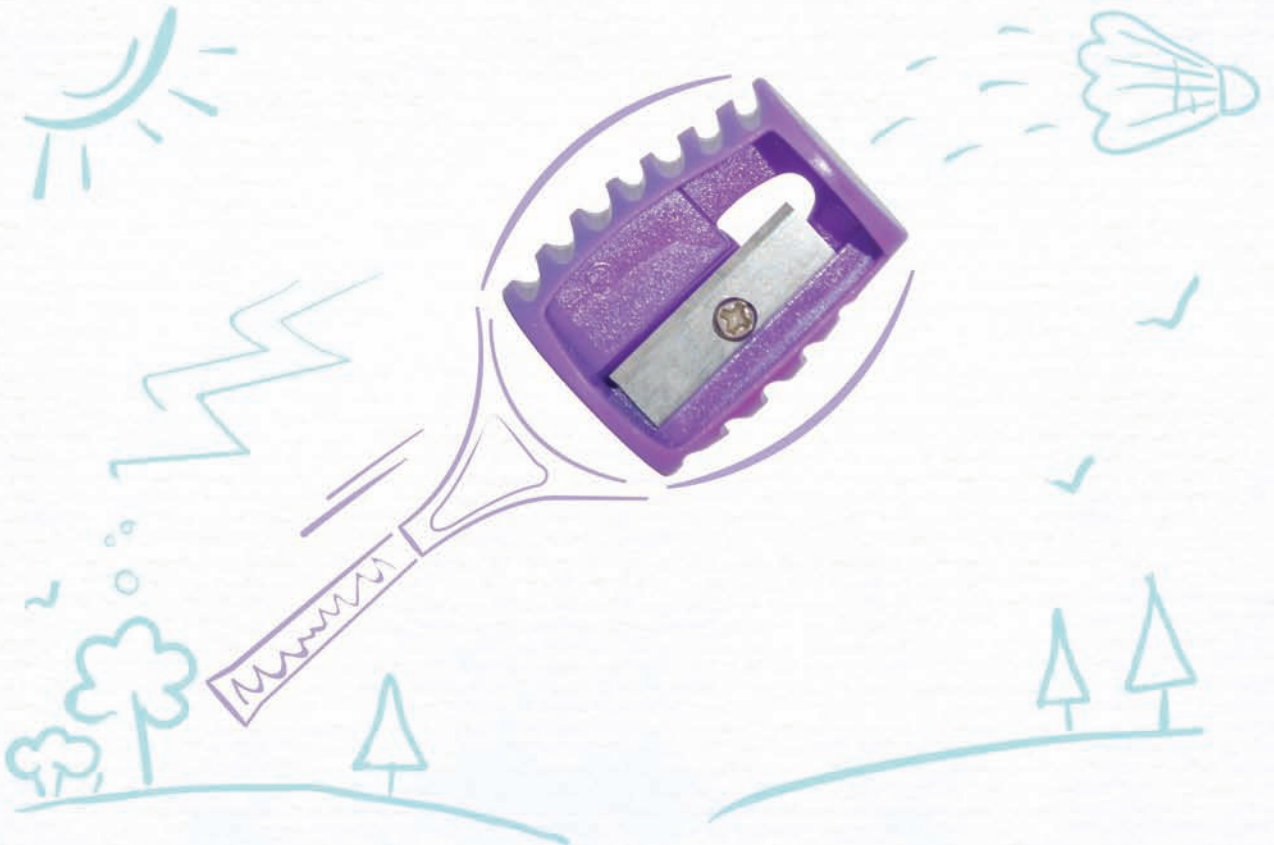

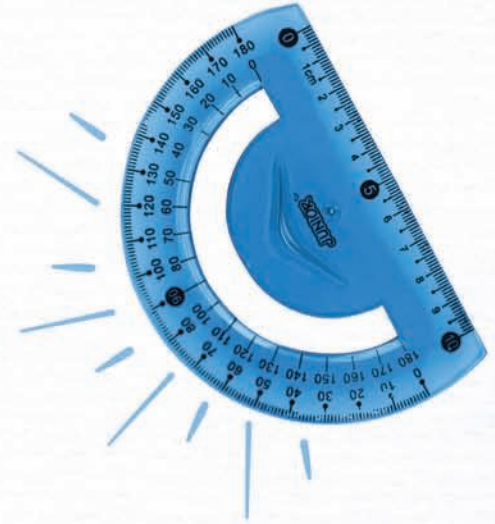

JUNIOR vita

PRODUCT SAFETY

All products of **Junior Vita** that are classified as toys comply with Toy Safety Regulation (EN-71 standards) and Phthalate Regulation, and they have CE certificates approved by SGS which is a world-wide accredited laboratory. All other products have been also tested by accredited laboratories and confirmed to be safe for human health.

An annual average of 3.000 product safety tests and 25.000 product quality tests, ISO 9000 certificate, ISO 14000 Environmental Management, OHSAS 18000 Occupational Health and Safety Management, ISO 5001 Energy Management and ISO 27000 Information Security Management certificate,

With respect to the lately enacted REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) regulation within European Union, **Junior Vita** has already completed pre-registration via appointing REACH Global Services SA (RGS) as the "Only Representative" to comply with the REACH regulation.

Junior Vita Fiber-Tipe washable

Fiber-Tip washable 9060

Specifications

This fantastic set of 24 Broad Point (6mm) chunky colouring pens, are ideal for colouring bigger areas or for the younger artist who will enjoy the chunky easy to hold pens. Also ideal for the environmentally conscious shopper, as they are manufactured in a solar energy powered factory, with a relevant part of the plastic used, being sourced from recycled products. As well as being long-lasting the ink is made with components that do not stain and can be easily removed from hands and fabrics with water and soap or just with a simple wash at 40 degrees, which is why we call these pens superwashable! Designed to conform to European EN71/3-9 Safety Regulations, these pens include vented, anti-choking caps, fixed nibs and security plugs.

FSC Certification

FSC® (Forest Stewardship Council) is an independent, non-profit, non-governmental organization that promotes responsible forest management around the world. Through a rigorous certification system, it provides standardization, brand assurance and accreditation services that are recognized by the international framework for companies, organizations and communities involved in responsible forestry.

The FSC® forest certification program contributes to the development of responsible forestry practices worldwide

FSC® certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits.

Why do we use FSC Certification?

- FSC® standards are globally recognized as the highest level of social and environmental standards for forestry.
- Certification bodies are also subject to regular testing for uncompromised and consistent implementation of FSC® rules and procedures.
- There is a tracking system that allows the FSC® certified tree to be tracked through the production chain to the final labeled product.
- FSC® is the only standard setting organization in the field of responsible forest management, backed by global environmental organizations such as WWF and Greenpeace, and recognized internationally.
- FSC® is represented in more than 50 countries around the world.
